

## **Zoom, Zoom**

**05/01/2021**

My Covid Memory: As a little boy one of my favorite pastimes was to play with small wooden or metal toy cars in our house on the wood or linoleum floors. I would race them and make them go faster by revving up the make-believe motors. Zoom, zoom they would go pretty fast from the living room floor to the kitchen. During this Covid Pandemic, I learned a new Zoom. I attended meetings on Zoom, I attended church on Zoom, I watched Globe City Council meetings on Zoom, I even attended My Brother-in-law's funeral, which was out of state, on Zoom. Zoom was more fun when I was younger.
